

## Home Grown Vegetable Contest

Do you think you have the best vegetables or the biggest tomato? The Horticulture Committee of Austin County & Linseisen's Feed & Supply are pleased to present the Home Grown Vegetable Contest and Program which will be hosted on Saturday, June 11th. Show off your prize-winning vegetables in your garden that you have grown!

The contest is open to the public, with no entry fee and no age limit! If you love to garden and grow vegetables, you can enter. Vegetable check in starts at 9am and will end at 10am at Linseisen's Feed located at 551 W. Main, Bellville. The judging will be closed to the public with awards presented no earlier than 11am. There will be free educational presentation offered at 10am, which will be held at the Bellville VFD meeting room located at 511 W Main, Bellville. The program will be on Different Types of Gardens, presented by Jeremy Peaches with Prairie View A&M University Cooperative Extension Program.

Only 1 entry per person in each of the main categories or where noted. No rotten or split tomatoes or other vegetables will be allowed or judged. All vegetables or fruit entered must be edible. Please make sure to have the correct number of samples per category when entering, otherwise, your entry will be disqualified.

*See Flier on Page 5*

## AUSTIN COUNTY HOG BOUNTY

Austin County Commissioners Court is offering a bounty on feral hogs, which has been in place since 2019. Participants will be awarded \$5 per feral hog harvested in Austin County, with biological evidence provided of harvest in the form of a pair of feral hog ears. Each pair must be placed in an individually sealed bag and dropped off to 1 of the 3 drop off locations. With the help of 3 local feed stores in the county, Steinhäuser's in Sealy, Linseisen's Feed & Supply in Bellville, and Lindemann Store in Industry will serve as the drop off locations.

A limit of 20 pairs per household per month allowed. All feral hogs must be harvested in Austin County and signed paperwork must be filled out completely to collect money.

*See Flier on Page 11*

### Mark Your Calendars for Upcoming Events

- June 10th: Healthy Lawns & Healthy Waters — Austin County Extension Office, Bellville, 1:00 pm
- June 11th: Home Grown Vegetable Contest — Linseisen's Feed/Bellville VFD, Bellville, 9:00 am
- June 21st: Lunch N Learn by Bluebonnet Master Gardeners — Austin County Extension Office, Bellville, 12:00 pm
- August 5th: Private Applicator Training — Austin County Extension Office, Bellville, 1:00 pm
- August 9th: Mill Creek Partnership Meeting — Washington County Sales Facility, Brenham, 5:30 pm
- August 19th: New Landowners Series- Fruit Trees, Pecans, Grapes — Cat Spring Ag Hall, Cat Spring, 1:30 pm
- August 26th: Fall Horticulture Seminar — American Legion, Sealy, 1:00 pm
- September 16th: New Landowners Series- Forage &/or Livestock Production — Colorado County, 1:30 pm
- October 7th: Fall Forage Program — Austin County Fairgrounds, Bellville, 9:00 am
- October 21st: New Landowners Series- Wildlife Mgt. & Native Prairie Restoration — Fayette County, 1:30 pm
- November 3rd: Private Applicator Training — Austin County Extension Office, Bellville, 1:00 pm
- November 18th: New Landowners Series- Bees and Trees for Homeowners — Washington County, 1:30 pm

## Rainwater Harvesting & Turf Management Training -June 10

Texas A&M AgriLife Extension Service's Healthy Lawns and Healthy Waters Program will host a residential rainwater harvesting and turf management training on June 10 for Austin and Washington Counties. The training is being offered in collaboration with the Mill Creek Watershed Partnerships and is hosted by the Austin & Washington County Texas A&M AgriLife Extension Service.

The free event will be from 1 p.m.–5 p.m., there will be an in-person and virtual option available. The in-person training will be at the AgriLife Extension Office of Austin County, 800 E. Wendt St., Bellville. An email with the virtual link will be sent the evening before to all virtual attendees.

Online registration is required at <https://hlhw.tamu.edu/workshops/2022/june-10-mill-creek-watershed-austin-and-washington-counties/> or contact John Smith, AgriLife Extension program specialist, Bryan-College Station, at [john.smith@ag.tamu.edu](mailto:john.smith@ag.tamu.edu) or 979-204-0573. Once attendees register for the event, updates, instructions to join the online meeting and materials related to the meeting will be sent via email.

“The Healthy Lawns and Healthy Waters Program aims to improve and protect surface water quality by enhancing awareness and knowledge of best management practices for residential landscapes,” Smith said.

Becky Bowling, Ph.D., AgriLife Extension urban water specialist, Dallas, said attendees will learn about the design and installation of residential rainwater harvesting systems as well as appropriate turf and landscape species based on local conditions and other practices.

“Management practices such as using irrigation delivery equipment, interpreting soil test results and understanding nutrient applications can help reduce runoff and make efficient use of applied landscape irrigation water,” Bowling said.

Dean Minchillo, AgriLife Extension program specialist in

Dallas, said proper fertilizer application and efficient water irrigation can protect and improve water quality in area creeks and collecting rainwater for lawn and landscape needs reduces stormwater runoff.

Evgenia Spears, watershed coordinator for the Mill Creek Watershed, will also discuss updates on Mill Creek watershed protection plan activities to improve and protect water quality in this watershed during the event.

### Soil Testing Campaign

Participants can have their soil tested as part of the training. The soil sample bag and analysis are free to Healthy Lawns and Healthy Waters Program participants.

Residents can pick up a soil sample bag with sampling instructions and the Urban and Homeowner Soil Sample Information Form at the AgriLife Extension offices in Austin County at 800 East Wendt St., Bellville, TX; or Washington County at 1305 East Blue Bell Road, Brenham, TX. Bags containing residents' soil samples should be returned to the location where they were obtained prior to or by one week after the meeting, or soil samples can be brought to the training. Please do not mail the soil sample to the lab.

Samples will be grouped into one submission and sent to the AgriLife Extension Soil, Water, and Forage Testing Lab in College Station for routine analysis, including micronutrients, pH, conductivity, nitrate-nitrogen, and other parameters.

The training will include information on how to understand soil test results and nutrient recommendations so residents can interpret results once the analysis is mailed to them.

*Funding for the Healthy Lawns and Healthy Waters Program is provided in part by the U.S. Environmental Protection Agency under assistance agreements (99614621, 99614624) to Texas Commission on Environmental Quality. The project is managed by the Texas Water Resources Institute, part of Texas A&M AgriLife Research, AgriLife Extension and the College of Agriculture and Life Sciences at Texas A&M University.*

## BMGA Spring Lunch-N-Learn Series Austin County

The Bluebonnet Master Gardeners of Austin County are pleased to present the 2022 “Lunch-N-Learn” series which will be hosted on the third Tuesday of each month, April-June and will continue in the Fall, current months are pending. The overall series will feature topics related to horticulture with homeowner and backyard gardeners in mind! Speakers are experts in their fields and practical gardeners with great tips and information for everyone.

Programs are held in-person at the Texas A&M AgriLife Extension Office of Austin County located at 800 E. Wendt Street in Bellville. Program registration will begin at 11:50am with the program beginning at 12:00pm and concluding about 1:00pm. At the conclusion of each session, the speaker and our Austin County Master Gardeners will be available to help answer gardening questions.

All Master Gardener Lunch-N-Learn programs are FREE and OPEN to the public and you are welcome to bring your own lunch and drink. We will have a few refreshments available as well.

Our Spring Series dates and topics will be as follows:

### Tuesday, June 21, 2022:

Preservation Tips of Herbs & Vegetables, by Dr. Jenna Anding, a Professor & Associate Department Head-Nutrition with Texas A&M AgriLife Extension

For more information regarding Bluebonnet Master Gardener Association, please visit <https://txmg.org/bluebonnet/>

*See Flier on Page 6*

## Multi-County New Landowners Series 2022

The Multi-County New Landowner Education program is a series of 7 informational meetings, seminars, and field days designed to make new landowners in Austin, Colorado, Fayette, and Washington Counties aware of what types of agricultural enterprises are best for their property. Participants in the program will hear from experts in a variety of fields in agriculture about best management practices that can be implemented on their own property. This innovative program assists new landowners in understanding the concepts of rural living. Participants in the program are given exposure to ideas on raising livestock and horses, plant identification, fence building, applying pesticides, soil testing, stock pond management, pond construction, fruit and nut production, rainwater harvesting, turf management, and much more. The program also serves as a way for new residents of the four counties to network and meet new people in their communities, find out what can be done on their land, what operations can be successful, and possibly what opportunities they have to serve the community.

The programs will be held on the ***third Friday of the months of August through November***. Each month's meeting will be held at different locations in one of the four counties. The meetings begin at 1:30pm and will last between 4 and 5 hours depending on the topic and possible tour stops. The cost for the program is \$20.00 per person per meeting. A great selection of refreshments will be provided at each session.

**August 19<sup>th</sup>** – Horticulture Production – Fruit Trees, Pecans, and Grapes for Landowners

**September 16<sup>th</sup>** – Forage &/or Livestock Production – Options for Small Acreage Operations

**October 21<sup>st</sup>** – Wildlife Management and Native Prairie Restoration

**November 18<sup>th</sup>** – Bees and Trees for Homeowners

The August meeting for the 2022 series will take place on ***Friday, August 19, 2022***, at the Cat Spring Agriculture Hall located at 13035 hall Road in Cat Spring. This session will provide the opportunity for attendees to learn about fruit trees and pecan trees as well as starting a vineyard. Don't miss this wonderful opportunity!

Registration materials and more information can also be found on our website, <https://washington.agrilife.org/nlo>

## RENEWAL UPDATE FOR 2022 APPLICATOR LICENSE HOLDERS

In response to the ongoing Covid 19 pandemic, the Texas Department of Agriculture (TDA) is extending this exemption of agriculture Continuing Education Unit (CEU) requirements. To address the CEU's and licensure requirements for Ag Pesticide applicators, the TDA will work with the ag pesticide applicators and CEU course providers of Texas during this critical time. Licensed applicators with expiring licenses or needing CEU's will be allowed to renew their license even if they have not met their CEU requirement for their current licensing period through December 31, 2022. Due to the uncertainty of the length and severity of the Covid 19 pandemic, many CEU events have been canceled. The TDA will work to insure all the state's pesticide applicators are able to acquire their licenses and required continuing education courses in a safe and effective manner during this time frame. Once CEU courses resume as normal, applicators will be required to obtain their required CEUs for their respective license classification for each licensing period. By allowing a CEU exemption, this will allow the applicators to maintain their ability to perform pesticide applications for pests, weeds, insects etc., without disrupting daily business functions. Applicators are encouraged to complete online courses even if online courses were completed the previous licensing period.

**COMMERCIAL, NON-COMMERCIAL AND NON-COMMERCIAL POLITICAL APPLICATORS** For licenses expiring in 2022 ONLY: TDA will exempt commercial, non-commercial and non-commercial political applicators who have taken online or correspondence courses within the last year. The TDA Rule 7.24 (t) (2) does not allow for online or correspondence courses to be taken 2 years consecutively. In light of the unusual circumstances due to Covid 19 (coronavirus), the TDA will allow online or correspondence courses to be taken in consecutive years. This exemption will be for the current 2022 licensing period. Commercial, non-commercial and non-commercial political pesticide applicators are required to obtain 5 CEUs per licensing period.

**PRIVATE APPLICATORS** For licenses expiring in 2022 ONLY: The TDA will also exempt private applicators from the TDA Rule 7.24 (v) (5). This rule does not allow a private applicator to acquire more than 10 CEUs through correspondence courses. During this quarantine time frame, private applicators will be allowed to acquire ALL of their CEUs through correspondence courses (online). Private applicators are required to obtain 15 CEUs per 5- year licensing period.

*Friday, June 10th*

*For Austin & Washington County Residents in Collaboration with the Mill Creek Watershed Partnership*

## **Austin County Extension Office**

800 E Wendt St., Bellville

Friday, August 5, 2022

Thursday, November 3, 2022

*Training is from 1pm to 5pm*

*Check in/Registration starts 15 mins prior*

*\*Date & Time are subject to change\**

## *Prices:*

*Training-\$10*

*Books-\$40*

*(2 manuals)*

**Checks payable to:  
Extension Program  
Council (EPC)**

**Nonrefundable**

***Please RSVP to reserve  
your spot, space is limited***

<http://austin.agrilife.org/event-registrations/>

Texas A&M AgriLife Extension provides equal opportunities in its programs and employment to all persons, regardless of race, color, sex, religion, national origin, disability, age, genetic information, veteran status, sexual orientation, or gender identity. The Texas A&M University System, U.S. Department of Agriculture, and the County Commissioners Courts of Texas Cooperating.

Trainings will be conducted at  
Texas A&M AgriLife Extension Service of  
Austin County located at  
800 E Wendt St., Bellville, TX 77418

The purpose of this training is to obtain a Private Applicator License from Texas Department of Agriculture (TDA). This license will enable the applicator to purchase and apply state limited use and federally restricted chemicals on his land or land he has control of for the purpose of production of agricultural commodities. All farm and ranch operators who do not have a Private Applicator's License to purchase "restricted use" pesticides (such as 2, 4-D, Grazon P+D, Tordon 22K, etc.) will need to attend this training.

If you are interested in obtaining a Private Applicator License Training, please contact the Austin County Extension office at (979) 865-2072 to purchase the manuals.

*Feral hogs can be harvested until funds are depleted. All feral hog **MUST** be harvested in Austin County.*

# SPRAY PERMITS REQUIRED FOR A PORTION OF AUSTIN COUNTY

As a reminder to anyone that will be using state limited use or state restricted use herbicides in Austin County, a permit to apply these herbicides must be obtained through the Texas Department of Agriculture if you plan on spraying in certain portions of the county. The following areas of Austin County must acquire a permit as is specified in the Texas Agricultural code, chapter 75,

- 1) Only that portion of Austin County lying east and south of the line beginning at the point where State Highway 36 crosses the north county line, thence southerly along Highway 36 to FM 949; thence westwardly along FM 949 to the San Bernard River is regulated by the Act, Subchapter G and regulations adopted thereunder.
- 2) Between March 15 and July 31, in that portion of Austin County lying south of Interstate Highway 10, the following restrictions on the use of 2,4-D formulations shall apply:
  - (A) the application by aircraft is prohibited
  - (B) the use of all ester formulations by any method is prohibited.

Permits may be obtained from the Texas AgriLife Extension Service of Austin County at (979) 865-2072. Forms can also be obtained by contacting the Texas Department of Agriculture Gulf Coast Regional Office in Houston at (713) 921-8200.
