

## 11th Annual Austin County Fair– Wine Show

It's that time of year in Texas for county fairs, rodeos, parades, and ag competitions, and the Austin County Fair has one contest that you will not find at any other state fair in Texas. And no matter where you live in Texas, you can participate in it! Produced and coordinated by the Gulf Coast Winegrowers Association, the 11th Annual Austin County Fair Wine Show will close out the Austin County Fair on October 15th at the Fairgrounds in Bellville, TX. The Wine Show is the only **non-commercial** wine competition presented by a county fair in Texas that is open to wine entries from non-commercial wine makers living anywhere in Texas.

Regardless of which Texas county you live in, this is your chance to have your own personal wine evaluated in blind tastings by a distinguished panel of 10 judges representing educators in the fields of Enology and Viticulture, commercial grape growers and winemakers, members of the media, and industry related individuals.

Winning wines in eight categories will be awarded Gold, Silver, and Bronze medals. Better yet, three traditional Austin County Fair Belt Buckles will also be awarded to the Overall Grand Champion (giving you bragging rights for the entire state), Reserve Grand Champion (also selected from all entries), and the Austin County Grand Champion (awarded to the best Austin County wine).

The Texas wine industry is growing in stature and size by leaps and bounds, and our commercial grape growers and wine makers are being recognized around the world. Whether you are interested in starting down that path or just want to showcase your skills as a home winemaker, this is your chance to earn some serious Texas bragging rights.

The Wine Show will be held in the American Legion Hall (988 E. Main, Bellville, TX) on the Austin County Fairgrounds. Judging (closed to the public) begins at 1:00 pm with the hall opening to the public after the judging (approximately 3:30-5:00 pm) for the presentation of awards, winemakers meet & greet, and free tastings of all entered wines. Parking and admission to the Fair and Wine Show is free on that day. Winners do not need to be present to receive awards.

Early entry and day-of-show registration and submission of wines is available. For a complete set of rules, entry form, registration, and wine submittal dates and locations, visit the Austin County Fair website at <https://austincountyfair.com/wine-show>

*See Flier on page 11*

- October 17th: Lunch-n-Learn Series – Bees — Austin County Extension Office, Bellville, 11:50 am
- October 20th: New Landowner -Wildlife Management & Native Prairie Restoration — Colorado County, 1:00 pm

## Facts about Horned Lizards by Jacob Dykes, PhD, Assistant Professor and Extension Wildlife Specialist

Did you know Texas is home to three species of Horned Lizards? Those species are the Texas Horned Lizard (*Phrynosoma cornutum*), which is commonly called a “horny toad”, the Round-tailed Horned Lizard (*Phrynosoma modestum*), and the Greater Short-horned Lizard (*Phrynosoma hernandesi*). Horned lizards are named for the horns they have on their heads (don’t you love when scientists use logic when naming critters), and horn configuration is a good way to identify the species.

**Texas Horned Lizard**

**Round-tailed Horned Lizard**

**Greater Short-horned Lizard**

Horned Lizards are usually found in flat, open areas. The Texas Horned Lizard can be found across most of Texas, but the other two species are less broadly distributed, with the Round-tailed Lizard being in the rocky areas in the west and the Greater Short-tailed Lizard being at high elevations in the Davis and Guadalupe Mountains. They range from about 3-6 inches in length and primarily eat harvester ants. In fact, they can consume 100 ants a day! If you have ever had harvester ants wreak havoc on your yard or pastures, this should excite you.

Horned Lizards like it hot and tend to be less active when the temperature drops below 75° F. They tend to hibernate from fall to spring and mate once they emerge from hibernating. The Texas Horned Lizard and the Round-tailed Horned Lizard lay eggs, but the Greater Short-horned Lizard gives birth to live young.

One of the coolest things about Horned Lizards (excluding the Round-tailed Lizard) is their defense mechanism. They have the ability to shoot a stream of blood from their eyes! The blood contains chemicals that taste bad to some predators, which encourages them to leave the lizards alone.

*Check out these pictures of a Texas Horned Lizard, or "horny toad". Pictures are my personal photos when I was in grad school. Stacie Villarreal*

## FALL HORTICULTURE SEMINAR

Horticulture Committee of Austin County and the Texas A&M AgriLife Extension Office of Austin County will be hosting a Fall Horticulture Seminar on Friday, August 25, 2023, at American Legion Post #442 located at 1630 Meyer St, Sealy. Program Registration will begin at 12:30 pm with the first presentation beginning at 1 pm.

Information to be covered includes Berries: Blue, Black and Red; How Native Plants Can Increase Biodiversity in Your Landscape; and Native Pollinators. Presenters include Stephan Janak with Texas A&M AgriLife Extension Service, John Williamson from the Bluebonnet Master Gardener Association and Master Naturalists from the Gideon Lincecum Chapter.

The program will cost \$20 per person or \$35 per couple. We ask that you please RSVP to Austin County Extension office or online at <https://austin.agrilife.org/event-registrations/> to reserve your seat. *See Flier on Page 9*

## Multi-County New Landowners Series 2023

The Multi-County New Landowner Education program is a series of eight informational meetings/seminars/field days designed to make new landowners in Austin, Colorado, Fayette, & Washington Counties aware of what types of agricultural enterprises are best for their property. Participants in the program will hear from experts in various fields of agriculture concerning the best management practices that they can implement on their own property. This innovative program assists new landowners in understanding the concepts of rural living. Participants in the program are given exposure to ideas on raising livestock and horses, plant identification, fence building, applying pesticides, soil testing, stock pond management, pond construction, fruit and nut production, and much more. The program also serves as a way for new residents of the four counties to network and meet new people in their communities, find out what can be done on their land, what operations can be profitable, and possibly what opportunities they have to serve the community.

Programs remaining will be held on the third Friday of the months of August through November. Each month's meeting will be held at a different location in one of the four participating counties. The meetings will begin at 1:30 pm with registration and last until 5 pm. The cost for the program is \$20.00 per person per meeting. Continuing Education Units (CEUs) for pesticide applicators will be offered as they are applicable. A great selection of refreshments will be provided at each session. The remaining programs for 2023 are:

- **August 18th** – Bees and Trees for Homeowners
- **September 15th** – Horticulture Production – Fruit Trees, Pecans, and Grapes for Landowners
- **October 20th** – Wildlife Management and Native Prairie Restoration
- **November 17th** – Emerging Issues

### **August Program – Bees & Trees for Homeowners – Immaculate Conception Catholic Church-Parish Hall**

The August meeting for the 2023 series will take place on *Friday, August 18, 2023*, at the Immaculate Conception German Catholic Church-Parish Hall located at 15994 TX-159 in Industry. Beekeeping continues to be a hot topic, especially for medium to small acreage landowners. Before you jump in head-first and order the equipment and a hive of bees, come learn what to expect! We will hear from a local beekeeper about what it takes to raise honeybees in this area, some of the challenges they face, and what they've found to be good solutions. In addition to bees, we will take a portion of the afternoon to talk trees! In Texas, and especially in our part of Texas, trees are a valuable commodity that landowners care about and strive to keep healthy and vigorous. Come learn about tree biology, how to recognize common tree problems, and how to manage tree health. We will "leaf" no question unanswered, discussing planting, pruning, watering, fertilizer, and insect and disease control. Don't miss this wonderful opportunity! Two CEUs (1 General, 1 IPM) will be offered for all licensed pesticide applicators.

The 2023 Multi-County New Landowner series is generously supported by:

**Capital Farm Credit ----- WC Tractor!**

*See Flier on Page 8*

## Annual Austin County Pecan Show

Horticulture Committee of Austin County will host its Annual Pecan Show on Thursday, November 30, 2023, at the Texas A&M AgriLife Extension Office located at 800 E Wendt St, Bellville. There will be a short educational program followed by an awards presentation.

Entries for this year's show must be delivered to the AgriLife Extension Office during normal business hours, 8:00 am to 12:00 pm (Noon) and 1:00 pm to 5:00 pm, from Wednesday, November 1st through Monday, November 27th. All entries must be submitted by 4:00pm on Monday, November 27th to be entered in the show.

Each entry must be in a brown paper bag (provided by office) with a completed entry card. Individuals may make as many entries as they wish of different pecan varieties, and each entry must consist of 50 pecans of the same variety. There is no fee or age limit to enter. Entries will be accepted from residents of Austin County or a surrounding county that does not have a county pecan show.

Ten (10) pecans will be randomly selected by the committee for judging. Included in the judging will be kernel weight percent, color, fill, and blemishes. Top placing pecans from all entries that qualify will be forwarded for judging at the regional pecan show and from there, to the state contest. Pecans not being forwarded to the regional show may be picked up at the AgriLife Extension Office on Thursday, November 30th after awards presentation.

*See Flier on Page 12*

## Austin County Hay Show Rules & Guidelines

Beef & Forage Committee of Austin County is encouraging beef cattle producers to turn in a sample of their hay for analysis at this year's Austin County Hay Show. In the coming months, hay samples will be accepted at different locations throughout Austin County. The analysis will be done by the Texas A&M Forage testing lab. Results will be available after the Annual Fall Forage Seminar at the Austin County Fairgrounds on October 6th or mailed directly to the producer following the program. Each location will have entry forms and directions for collecting samples. Collection boxes will be provided. In addition, the analysis is offered free of charge to anyone growing or feeding hay to livestock.

The analysis will give producers very useful information about the quality of the hay they are feeding to their livestock, and the test will help them determine what additional level of supplement may be needed during the winter. The test will show the crude protein level, total digestibility, and acid detergent fiber (ratio of leaf to stem). The testing campaign and Hay Show is open to any hay producer from Austin or surrounding counties.

Hay Show Rules and Guidelines have now been released! Visit <https://austin.agrilife.org/hay-show/> for a complete list of the Rules, Guidelines and Forms for 2023.

Hay classes for this year's show will be:

- 1) **Improved (Hybrid) Bermudagrass** (Except T-85) (e.g., Coastal, Jiggs, Alicia)
- 2) **Other Bermudagrasses** (e.g., Common Bermudagrass, Tifton 85)
- 3) **Warm Season Annual Grasses** (e.g., Rice Straw, Hay Grazer, Sudan Crosses, Sorghum Alum)
- 4) **Other Warm Season Perennial Grasses** (e.g., Eastern Gamagrass, Bluestem, Johnsongrass, Kleingrass, Bahiagrass)
- 5) **Cool Season Grasses** (e.g., Wheat, Oats, Cereal Rye, Ryegrass)
- 6) **Legumes** (e.g., Clover, Peanut, Cowpea)
- 7) **Legume/Grass Mixtures** (e.g., Rye/Clover, Oats/Vetch)
- 8) **\*New this year\* All Other Mixed Grasses** (e.g., Bermudagrass/Bahia, Bermudagrass/Johnsongrass)

## Lunch-N-Learn Series 2023

Bluebonnet Master Gardeners of Austin County are pleased to present the 2023 "Lunch-N-Learn" series hosted on the third Tuesday of each month from January-May and September-October. The overall series features topics related to horticulture with homeowner and backyard gardeners in mind! Speakers are experts in their fields and practical gardeners with great tips and information for everyone.

Programs are held in-person at the Texas A&M AgriLife Extension Office of Austin County located at 800 E Wendt Street in Bellville. Program registration will begin at 11:50 am with the program beginning promptly at 12:00 pm and concluding by 12:55 pm. At the conclusion of each session, the speaker and our Austin County Master Gardeners will be available to help answer gardening questions.

All Master Gardener Lunch-N-Learn programs are FREE and OPEN to the public and you are welcome to bring your own lunch and drink. We will have a few refreshments available as well. Registration is not required but is encouraged.

Our remaining series dates and topics are as follows:

- Tuesday, September 19th - Plumerias
- Tuesday, October 17th - Wonderful World of the Honeybee

*See Flier on Page 10*

## AUSTIN COUNTY HOG BOUNTY

Austin County Feral Hog Bounty is still going on! The Bounty program is offered with the support of the Austin County Commissioners Court. Participants will be awarded \$5 per feral hog harvested in Austin County, with biological evidence provided of harvest in the form of a pair of feral hog ears. Each pair must be placed in an individually sealed bag and dropped off at 1 of the 3 drop off locations. Three local feed stores in the county - Steinhauser's in Sealy, Linseisen's Feed & Supply in Bellville, and Lindemann Store in Industry, will serve as the drop off locations.

A limit of 20 pairs per household per month is allowed. All feral hogs must be harvested in Austin County & signed paperwork must be completed when dropping off the ears to collect the bounty.

*See Flier on Page 13*

Texas A&M AgriLife Extension provides equal opportunities in its programs and employment to all persons, regardless of race, color, sex, religion, national origin, disability, age, genetic information, veteran status, sexual orientation, or gender identity. The Texas A&M University System, U.S. Department of Agriculture, and the County Commissioners Courts of Texas Cooperating.

Training will be conducted at  
Texas A&M AgriLife Extension Service of  
Austin County located at  
800 E Wendt St., Bellville, TX 77418

The purpose of this training is to obtain a Private Applicator License from Texas Department of Agriculture (TDA). This license will enable the applicator to purchase and apply state limited use and federally restricted chemicals on his land or land he has control of for the purpose of production of agricultural commodities. All farm and ranch operators who do not have a Private Applicator's License to purchase "restricted use" pesticides (such as 2, 4-D, Grazon P+D, Tordon 22K, etc.) will need to attend this training.

If you are interested in obtaining a Private Applicator License Training and need a different date, please contact the Austin County Extension office at (979) 865-2072 to purchase the manuals.

*Feral hogs can be harvested until funds are depleted. All feral hog **MUST** be harvested in Austin County.*

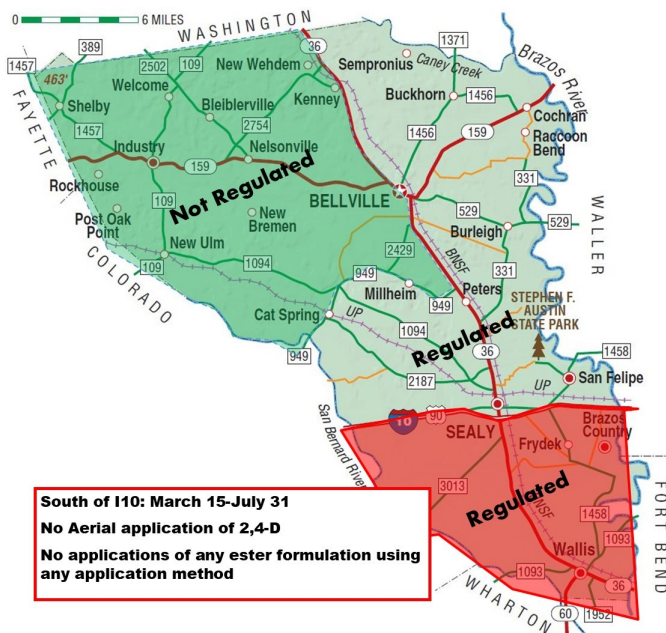

## SPRAY PERMITS REQUIRED FOR A PORTION OF AUSTIN COUNTY

As a reminder to anyone that will be using state limited use or state restricted use herbicides in Austin County, a permit to apply these herbicides must be obtained through the Texas Department of Agriculture if you plan on spraying in certain portions of the county. The following areas of Austin County must acquire a permit as is specified in the Texas Agricultural code, chapter 75,

- 1) Only that portion of Austin County lying east and south of the line beginning at the point where State Highway 36 crosses the north county line, thence southerly along Highway 36 to FM 949; thence westwardly along FM 949 to the San Bernard River is regulated by the Act, Subchapter G and regulations adopted thereunder.
- 2) Between March 15 and July 31, in that portion of Austin County lying south of Interstate Highway 10, the following restrictions on the use of 2,4-D formulations shall apply:
  - (A) the application by aircraft is prohibited
  - (B) the use of all ester formulations by any method is prohibited.

Permits may be obtained from the Texas AgriLife Extension Service of Austin County at (979) 865-2072. Forms can also be
